In an ancient desert empire, select humans form pacts with spirits of a separate realm. Humans who have mastered the use of spiritual energy are revered and honored by all.

From the furthest, most barren corner of the land, a young villager Dara hears faint murmurs from the spiritual world. After a fateful encounter with a spirit named Solus, Dara embarks on a journey to discover her spiritual powers.

Help Dara hone her new found strength, harness the power of spirits, and ultimately join the famed ranks of Spirit Masters by achieving victory in the Great Tournament.
Main Objective

The player controls the spirits on the left. In each battle, the player controls up to two spirits. The objective is to defeat the enemy spirits before they defeat your spirits.
Deserted is a turn-based tactics game. A battle centers around the action bar, which determines when a character can select actions.

The action bar is split up into a waiting phase and a casting phase. All characters progress continuously through the bar and are only allowed to select actions upon entering the cast phase.

When a user-controlled character enters the cast phase, the game pauses and the player must pre-plan actions for a fixed number of

1. Character has reached start of cast phase and must plan out actions.
2. Character is in waiting phase.
3. Character is in cast phase, waiting to execute action.
